Can be installed over steel decking with polyiso or plywood decking.

### Available Widths:

12", 14", 16" or 18"

### Substrates Available:

Galvalume - 22GA, 24GA

Aluminum - .032", .040"

Copper - 16 oz and Zinc

### Available Options:

Radius Panel (Single or Double Lock),  
Striations, Beads, Pencil Ribs

*Factory made or field rolled to exact lengths*

### Ideal Application:

Commercial, Residential, and Historical

Our MD 150SS roof system is a versatile 1-1/2" mechanically seamed panel that can be curved to a wide range of raduses and applications, lending striking dimension to any architectural design.

With concealed fasteners and a floating clip system in place to reduce the effect of thermal stress on panels, a beautifully smooth and uniform appearance is maintained despite fluctuations in temperature.
